---

These innovative CO2 batteries from Energy Dome promise long-duration energy storage for the grid, and reliable 24/7 clean power for data centers.

The project will feature a 1,150-megawatt solar installation comprising roughly 3.1 million panels and a matching 1,150 MW (4,600 MWh) of battery storage. This system is ...

In a surprising move, the North American development arm of Engie has asked the California Energy Commission (CEC) to pause the review of its Compass Energy Storage ...

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt (MW) Bellefield 1 project in Kern County, ...

AES just completed the first half of Bellefield, which will become the largest solar + storage facility in the US. The 1,000-megawatt ...

Battery growth spurt Battery energy storage systems that suck up cheap power during periods of low demand, then discharge it at a profit during periods of high demand, are considered critical ...
