Sunwoda Energy has recently unveiled the Sunwoda MESS 2000, the world's first 10-metre-class mobile energy storage system vehicle with a 2 MWh energy storage capacity.

This project consists of two 10 MW of battery energy storage systems, each paired with GE's proven 50 MW LM6000 aeroderivative gas turbines, capable of providing instantaneous ...

Energy storage is essential to a resilient grid and clean energy system. Learn about the types of energy storage, available incentives, and more.

Power Edison is a leading developer and provider of utility-scale mobile energy storage systems. With a focus on innovation and collaboration, we ...

Power Edison is a leading developer and provider of utility-scale mobile energy storage systems. With a focus on innovation and collaboration, we deliver flexible and reliable energy solutions ...

That's the rockstar potential of 10MW mobile energy storage - energy systems you can literally drive to disaster zones, construction sites, or anywhere electrons are needed ASAP.
