Which battery bank is best for a home solar panel system?

Home solar panel systems need a way to store all the energy they produce, which requires effective, efficient and powerful solar battery banks. BigBattery off-grid lithium battery banks are made from LiFePO4 cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery.

They may be configured in series, parallel or a mixture of both to deliver the desired voltage, capacity, or power density. Packs are identified by cell size, number of cells, battery structure, ...
