The HMX-BESS-250500 container energy storage system is designed for businesses seeking to optimize their energy consumption, reduce costs, and support sustainable energy practices.

As a standardized "energy package," each container provides 250kW/430kWh, and up to five units can be paralleled, enabling capacity expansion from 100-1000kW / 200-2000kWh. This ...

The system cut energy bills and carbon footprints. Our solar energy storage system delivers stable power for factories, warehouses, and large facilities.

Sunark's 250kW energy storage system features a 500kWh LiFePO4 battery module, known for its stable discharge platform, excellent safety, and long cycle life.

A high-performance, all-in-one, containerized battery energy storage system developed by Sunark, provides C& I users with the intelligent and reliable solution to optimize energy efficiency and ...

Integrated Container Energy Storage has emerged as the definitive solution, offering high capacity, high integration, and rapid deployment. As an innovator in power ...
