---

Our battery energy storage container solutions are ideal for commercial buildings seeking to reduce energy costs through peak shaving and load optimization. The system seamlessly ...

As a standardized "energy package," each container provides 250kW/430kWh, and up to five units can be paralleled, enabling capacity expansion from 100-1000kW / 200-2000kWh. This ...

Expansion enclosures can be added to increase the battery storage from 440 kWh up to 1760 kWh. The BESS can be run in off grid systems or grid Connected where it can provide grid ...

Equipped with automatic fire detection and alarm systems, the 20FT Container 250kW 860kWh Battery Energy Storage System is the ultimate choice for secure, scalable, and efficient energy ...

Whether you're looking to respond to TOU rates, schedule peak shaving for demand charge reduction, improve grid power quality, serve as a backup for reliable emergency power, or ...

Prisma Storage is a flexible Power Conversion System (PCS) designed to manage and optimise your energy storage. Available as a ready-to-use cabinet or a kit for custom integration, it fits ...
