NY SOLAR MAP estimates rooftop and ground mount solar electric potential (PV panels) and connects you to local solar resources.

Get low-cost clean energy while reducing your carbon footprint with rooftop solar panels. When you pair solar with an energy storage system you can increase your comfort and safety during ...

Get low-cost clean energy while reducing your carbon footprint with rooftop solar panels. When you pair solar with an energy storage system you can ...

Everything you need to know about rooftop solar power in 2025. From costs and savings to installation and maintenance - your complete guide to home solar panels.

The project evaluates both theoretical solar availability (GHI) and practical energy output (PVOUT), helping to visualize which rooftops may be most suitable for solar photovoltaic ...

UGE has completed its latest community solar project in New York City. At 847kW, it will produce enough clean electricity to power roughly 200 homes.
