How does Etihad Rail work in the UAE?

Etihad Rail freight trains are operational across the UAE via the National Railway Network. Etihad Rail's transport solutions mean significant benefits for businesses, allowing for more productive use of time and resources, reduced costs, and more efficient asset management.

What is Etihad Rail partnering with first Abu Dhabi bank?

In February 2022, Etihad Rail signed a Dh1.99bn (\$541.7m) finance agreement with First Abu Dhabi Bank for developing passenger transport services on the railway network. The arrangement is part of the UAE National Railways Programme, which is the UAE's largest land rail network of its kind.

How is Etihad Rail reshaping logistics across the UAE?

Etihad Rail is reshaping logistics across the UAE. The UAE is building a rail network project that extends its vision beyond just improving passenger transit; it is poised to revolutionise the nation's freight operations and enhance the sustainability of its supply chain infrastructure.

When will Etihad Rail connect Abu Dhabi to Dubai?

In 2025, Etihad Rail announced a new 150-km high-speed train line between Abu Dhabi and Dubai. It will connect the two cities in 30 minutes, reaching speeds of up to 350 km/h. The line is expected to be operational by 2030.

It offers a sustainable and efficient alternative for the transportation of freight and can handle 50 million tonnes (mt) of freight. The railway project significantly contributes to ...
