Specializing in renewable energy storage since 2000, we provide turnkey flow battery systems for commercial and utility-scale projects across Africa. Our ISO-certified solutions blend German ...

Last year, the country transformed the Koshe dump site, the only landfill in Addis Ababa, into a new waste-to-energy plant, the first such project on the continent.

Addis Ababa's surface water reservoirs and groundwater infrastructures are in the Akaki watershed of the Awash Basin. This study integrates a hydrological model, ...

With 65% of its population lacking reliable electricity access, this project combines cutting-edge battery storage systems with solar farms to stabilize the national grid.

This article cuts through the noise to deliver actionable insights about Ethiopia's flagship energy initiative while exploring broader trends in battery storage solutions.

The list also includes 24 wind projects, 17 geothermal, and 14 solar, as Ethiopia not only increases its use of renewable energy but also moves toward becoming a net exporter of ...
