When will lithium ion batteries be available for air transport?

From 1 January 2026, lithium-ion batteries that are packed with equipment and vehicles powered by lithium ion or sodium ion batteries must be offered for air transport with the battery at a reduced state of charge, unless otherwise approved by the relevant States (A331).

Are lithium-ion and sodium ion batteries safe in air transport?

These changes have been adopted by ICAO into the 2025-2026 edition of the Technical Instructions for the Safe Transport of Dangerous Goods by Air. The objective of these changes is to reduce the potential risk posed by lithium-ion and sodium ion batteries in air transport.

Are batteries allowed in air freight?

There have been incidents of batteries causing fires within the aircraft and forcing emergency landings. Batteries are not allowed in unaccompanied luggage by air freight. If not inside a device like a smartphone, the batteries must be in a hard cased container.

Can I ship sodium ion batteries on a passenger aircraft?

All packages prepared in accordance with Packing Instruction 968, Section IA and IB, must bear a Cargo Aircraft Only label, in addition to other required marks and/or labels. All sodium ion cells and batteries shipped by themselves (UN 3551) are forbidden for transport as cargo on passenger aircraft.

This 2024 guide covers essential requirements for transporting both lithium-ion (UN3480) and lithium-metal (UN3090) batteries by air, sea, and ...

Summary: As renewable energy adoption grows in Durres, Albania, safe and efficient air transport of energy storage batteries has become critical. This article explores innovative solutions ...

The rules are especially strict for air transport due to the elevated fire risks associated with the confined environment and altitude. In the following sections, we highlight ...

Each distinct shipping guide in this document refers to the regulatory requirements for a specific lithium cell/battery type, configuration, and size. In this way, a shipper will easily find the ...

If the Watt-hour rating isn't clearly marked on your battery case, and the information isn't included on a
