In Algeria, Highjoule not only supplies high-quality products but also provides professional technical support, promoting the upgrading of the local energy mix. Furthermore, the company ...

Explore how advanced liquid-cooled, containerized storage for commercial & industrial use boosts safety, density, and scalability. This innovation is pivotal for optimizing ...

Keeping in view of the technical performance and economic parameter, it demonstrates that this small-scale technology can contribute to solving problems of cooling like small area ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

In Algeria, an increasing number of households, industrial and commercial enterprises are adopting solar or backup power solutions. With its factory-direct pricing, high efficiency, long ...

The main objective of this study is to improve indoor air quality by employing a solar-powered liquid desiccant system (LDS) to simultaneously reduce the temperature and humidity levels of ...
