How much energy does Argentina need for a battery energy storage system?

Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target. Battery energy storage systems (BESS) License: CC0 1.0 Universal (CC0 1.0) Public Domain Dedication.

What is Argentina's first energy storage tender?

(USD 1.0 = EUR 0.860) Loading... Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target.

Why is Buenos Aires investing \$540 million in energy storage?

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for Argentina - and potentially, a blueprint for the entire region. What role will energy storage play in your country's energy transition?

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

Fifteen companies submitted 27 proposals totaling 1,347 MW of storage capacity, far surpassing the government's original goal of 500 MW. The bids reflect an estimated \$1 ...

The Argentinian Ministry of Energy has launched the "AlmaGBA" Battery Energy Storage System (BESS) tender, aiming to deploy 500MW (4-hour duration, totaling 2GWh) to ...

Argentina has received more than 1.3GW of energy storage applications for its first battery energy storage system (BESS) tender.

Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that ...

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future ...
