When Paraguay's National Power Company announced the winning bidder for its landmark Asuncion Energy Storage Project last week, industry analysts weren't just watching ...

Combining high-speed rotational mechanics with smart grid integration, this initiative addresses voltage fluctuations and storage gaps in solar/wind systems. Discover how flywheels ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

Did you know Paraguay's electricity demand grew 42% in the last decade? Let's explore how modern energy storage systems are reshaping Asuncion's power infrastructure.

With a growing focus on renewable energy integration, large-scale energy storage projects are playing a pivotal role in stabilizing the grid and supporting sustainable development. This ...

Winners in the storage auction are CNI Energy with two 25 MW plants, Terna Energy with one of 40 MW, Heron with a 12 MW project, AMBER Energy with an 18 MW system, Motor Oil's ...
