Delta, a global leader in power and energy management solutions, has introduced its latest innovation in energy storage: a containerized LFP (lithium iron phosphate) battery ...

The system is based on LiFePO<sub>4</sub> lithium iron phosphate battery technology, offering high safety, a long lifespan (over 6,500 cycles), and a modular design, making it ideal for Mauritius's ...

The Sol-Ark & L3 Series Lithium(TM) battery energy storage system (BESS) offers scalability, reliability, and energy resilience essential for modern commercial and industrial ...

As Bahrain positions itself as a smart energy hub, lithium storage could become the nation's invisible backbone. Imagine hospitals immune to blackouts, factories slicing ...

Ever wondered how a small nation like Bahrain is making big waves in the global energy storage scene? As the sun beats down on Manama's futuristic skyline, the city is ...

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...
