A 50MW solar+storage plant near Lake Chad using second-life EV batteries from Europe. The agent handles toxic waste certifications, negotiates pastoral land rights, even arranges ...

Our storage systems feature seismic-resistant, moment-resisting reinforcements, offering the strength and flexibility to evenly distribute seismic forces and absorb energy without collapsing.

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Chad has launched an auction calling for a consulting engineer to control and supervise the build of a 30 MW (AC) solar power plant - with a 60 MWh storage system, 90 kV line and 90/33 kV ...

The container ESS Chad project undertaken by NPP New Energy successfully completed the factory commissioning and arrived in Chad for installation and deployment.

It's a litmus test for renewable energy adoption in sub-Saharan Africa. With Chad aiming to increase its renewable capacity by 40% by 2030, this 250MW storage facility could ...
