As long as a truck can get to the plot of land, we can drop your container. Now you have the option to go fully off grid with a few other add-ons, directly from Bob's Containers.

This ambitious endeavor transforms a standard 20-foot shipping container into a high-capacity, modular, and off-grid power system capable of supporting diverse energy needs.

In short, you can indeed run power to a container - either by extending a line from the grid or by turning the container itself into a mini ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.
