How can e-bike battery swapping and charging cabinets reduce apartment fires?

The measure is designed to reduce apartment fires by moving more battery charging and storage to safe, Fire Department New York (FDNY) approved cabinets on sidewalks. The agency also published a step-by-step guide with information on the process to apply for e-bike battery swapping and charging cabinets on public sidewalks.

How does NYC DOT approve e-bike battery swapping & charging cabinets?

NYC DOT will review applications through the revocable consent process and will coordinate closely with FDNY, which will conduct site inspections prior to installation. All e-bike battery swapping and charging cabinet models will require approval by FDNY's Technology Management unit.

Do e-bike battery swapping and charging cabinets need a permit?

All e-bike battery swapping and charging cabinet models will require approval by FDNY's Technology Management unit. The New York City Department of Buildings will be responsible for issuing electrical permits for cabinet installation.

Can an e-bike battery swapping & charging cabinet be installed outside?

Under the rules, an e-bike battery swapping and charging cabinet may be installed outdoors and adjacent to buildings with ground floor commercial and community facility uses and residential buildings with five or more dwelling units through a revocable consent.

DOT has issued an application guide, Sidewalk E-Bike Battery Swapping and Charging Cabinets 101, which outlines the site clearance requirements, cabinet specifications, ...

Starting Feb. 1, property owners and tenants can apply to install battery swapping and charging cabinets.

To reduce the fire risk posed by lithium-ion batteries, the City of New York supports the installation of outdoor e-bike battery charging and swapping cabinets on public sidewalks.

NEW YORK - On Tuesday, NYC DOT Commissioner Ydanis Rodriguez announced that property owners and approved tenants can ...

The NYC Department of Transportation (DOT) will install e-bike battery-swapping cabinets at 25 locations throughout the city, with most of them based in Manhattan.
