The Cylindrical Lithium Iron Phosphate (LiFePO₄ - LFP) range consists of 9 models in 18650 or 26650 formats. The cells have a nominal voltage of 3.2v and capacities from 1100 mAh to ...

Keheng is an LFP battery manufacturer that produces lithium iron phosphate (LiFePO₄) Cylindrical and prismatic battery cells.

Housed in a rugged ABS case that is waterproof rated to IP64 the prismatic LiFePO₄ cells provide an identical voltage output to SLA while weighing ...

Housed in a rugged ABS case that is waterproof rated to IP64 the prismatic LiFePO₄ cells provide an identical voltage output to SLA while weighing in at 1/3 of the weight. Soft rubber ...

Explore the differences between cylindrical, prismatic, and pouch LiFePO₄ battery cells to choose the right type for your needs.

This paper introduces a pseudo three-dimensional electrochemical-thermal coupled battery model for a cylindrical Lithium Iron Phosphate battery. The model comprises a ...
