Damascus launches a fixed-tariff scheme for 2-10 MW green power and signs a deal with 20Solar Energy to build twin 100-MW solar plants, one with battery storage. Syria ...

"The goal was to require every company introducing new products to submit samples for testing before issuing a quality certificate ...

"The goal was to require every company introducing new products to submit samples for testing before issuing a quality certificate verifying compliance with approved ...

Technological advancements are dramatically improving solar storage container performance while reducing costs. Next-generation thermal management systems maintain optimal ...

Some 90% of Syrians live in poverty. Buying solar panels, private generators or other means of producing their own energy has been out of reach for most of the population.

The system utilizes existing geothermal gradients to maintain optimal operating temperatures, cutting auxiliary power consumption by 35%. Imagine using Earth's own heat to keep your ...
