---

Built for rapid deployment, our 500 kW capacity batteries are a fast way to increase your efficiency, on or off the grid. Packaged with everything you need - from fire protection to HVAC ...

The 500 kWh Battery Container is a robust and mobile energy storage solution designed to store and supply substantial amounts of electricity efficiently. Here's an overview of its key features ...

Each BESS container has either a 300kW or 500kW PCS system offering a complete, install ready energy storage system. All system systems are offered with either 400VAC or 480VAC ...

It integrates battery cabinets, lithium battery management systems (BMS), and container dynamic environment monitoring systems, and can integrate storage batteries according to customer ...

The 500kW storage converter is designed as an integrated solution, supporting simultaneous access to loads, batteries, grid or diesel generators, and photovoltaic, with a variety of ...

The energy system and information system can communicate with each other to realize the functions of real-time data monitoring, AI data analysis and cloud storage.
