Limes Renewable Energy has secured the environmental qualification resolution for its Pradera Larga solar and storage project in Chile's Valparaíso Region.

Solar power combined with battery energy storage is at the forefront of Chile's recent generation growth.

Summary: Valparaiso, Chile, is making waves in renewable energy with its groundbreaking energy storage initiative. This article explores how the project integrates solar and wind power, ...

Summary: Valparaiso's push for solar energy faces unique challenges in storage costs. This article explores the reasons behind high photovoltaic energy storage expenses, analyzes ...

Uriel Renovables is entering the Chilean energy market with a US\$450 million investment to build four photovoltaic parks totaling 420 MWp, each equipped with lithium-ion ...

Solar power in Chile is an increasingly important source of energy. Total installed photovoltaic (PV) capacity in Chile reached 11.05 GW in 2023. [1] In 2024, Solar energy provided 19.92 ...
