This reference design shows how to implement a Power Line Communication (PLC) for HV DC and AC lines from multiple solar panels to a data aggregator connected or embedded to the ...

Uninterrupted power supply for photovoltaic 5g communication base stations Base station operators deploy a large number of distributed photovoltaics to solve the problems of high ...

Renesas's single-stage, bidirectional GaN-based microinverter could redefine the future of energy conversion and distributed power systems.

Simple Implementation of many GAN models with PyTorch. - Yangyangii/GAN-Tutorial

Softmax GAN is a novel variant of Generative Adversarial Network (GAN). The key idea of Softmax GAN is to replace the classification loss in the original GAN with a softmax cross ...

Generative adversarial networks (GAN) are a class of generative machine learning frameworks. A GAN consists of two competing neural networks, often termed the Discriminator ...
