---

When you think of solar, rooftops or open fields with panels generating renewable electricity probably comes to mind. However, solar products have evolved - and now, many ...

Specifically designed for use in the residential solar sector, the bifacial modules, the first in the EcoLife series, includes 54 cells and a maximum power output of up to 510W.

LONGi launched a premium back contact module EcoLife series based on heterojunction (HBC) at Intersolar, Munich.

A group of scientists from Chinese solar module maker Longi has described in a new scientific paper the 27.09%-efficient heterojunction back contact (HBC) solar cell it ...

First commercialized PV module based on HBC platform. The EcoLife series incorporates the world's only mass-produced HJT + BC ...

Based on an exhaustive review of papers, this work identifies characteristics and solutions to address power management issues in BIPV systems through three key ...
