Who makes Fimer solar inverters?

FIMER is a well-established Italian-based inverter manufacturer that took over ABB's solar division in early 2020. The company is in the process of revamping many of the ABB-style inverters and is expanding its range of high-quality string solar inverters for residential, commercial and utility-scale applications.

Which solar inverter should I buy in 2025?

Every solar system needs some kind of inverter to convert sunlight into usable electricity. CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025.

What are the best residential microinverters?

There aren't as many microinverters to choose from in comparison to string inverters. But Enphase's IQ8 Series are the best residential microinverters we found. Each one is fairly efficient and comes with a 25-year warranty. Enphase falls short in the customer support and sizing categories. Pricing is similar to other microinverters we've seen.

What is a solar inverter?

The solar inverter is one of the most important parts of a solar system and is often overlooked by those looking to buy solar energy. This review highlights the best inverters from the world's leading manufacturers to ensure your solar system operates trouble-free for many years.

Thermotron Solar Panel Testing Systems provide customized environmental chamber solutions for testing solar panels, grid-tied photovoltaic inverters, or photovoltaic cells and modules.
