---

In this review, recent advances in the development of ZHSCs are summarized. Particular emphasis is placed on state-of-the-art cathodes (including carbon, metal oxides, ...

Zinc-ion hybrid supercapacitor (ZIHSC) is one of the popular emerging battery hybrid supercapacitors which integrates Zinc-ion battery ...

Zinc-ion hybrid supercapacitors (ZHSCs) may be the most promising energy storage device alternatives for portable and large-scale ...

Cost effective and safe zinc-ion hybrid supercapacitors (ZIHSCs), coupling the virtues of aqueous rechargeable supercapacitors and batteries, hold great potential in the energy storage field.

This emerging star is the Zinc-Hybrid Supercapacitor Battery (ZHS) -- an intriguing fusion of a battery's energy-holding ability and a supercapacitor's instant power ...

Zinc-ion hybrid supercapacitors (ZHSCs) may be the most promising energy storage device alternatives for portable and large-scale electronic devices in the future, as ...
