How much does Hungarian government spend on energy storage projects?

The Hungarian government has allocated HUF 62 billion (EUR 158 million) for energy storage projects with an overall 440 MW in operating power. Hungarian authorities launched the tender for grid-scale batteries on January 15 and received offers until February 5. The winning bidders were selected a few days ago.

Will Hungarian energy storage projects get subsidy support?

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in February this year.

Why did Hungarian government hold a battery storage tender in 2024?

In early 2024, the Hungarian government held the battery storage tender, which aimed to enhance the development of large, grid-integrated battery energy storage systems (BESS) by market participants in the country.

Where will Hungary's largest energy storage system be built?

With funds obtained through a previous program, transmission system operator MAVIR is already building the country's largest energy storage system - a 20 MW project in Szolnok, central Hungary, the ministry said. It added that several projects with even bigger capacity will be installed under the tender concluded a few days ago.
