The Department of Energy's (DOE) Energy Storage Strategy and Roadmap (SRM) represents a significantly expanded strategic revision on the original ESGC 2020 Roadmap.

All of the states with a storage policy in place have a renewable portfolio standard or a nonbinding renewable energy goal.

Many factors influence the market for DG, including government policies at the local, state, and federal levels, and project costs, which vary significantly depending on location, size, and ...

The whitepaper outlines policy recommendations to open markets for storage development, build financial support, grow a domestic storage supply chain, and progress long ...

Long-duration energy storage (LDES) will play an increasingly important role in decarbonizing the power sector as more variable renewable energy is added to the electric power grid. LDES is ...
