Power up your off-grid lifestyle with a mobile solar container. Find out how the Meox 20ft container with foldable solar panels can provide a reliable source of electricity in rural or remote areas.

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

Discover our range of innovative solar panels on shipping container products engineered to meet your renewable energy needs with maximum efficiency and reliability.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Core highlights: The liquid-cooled battery container is integrated with battery clusters, converging power distribution cabinets, liquid-cooled units, automatic fire-fighting systems, lighting ...

We are offering mini renewable power stations in a Off-Grid shipping Container ready to be deployed worldwide. These include solar PV panels and mountings.
