Does Kyrgyzstan adopt electric vehicles?

We present a study into electric vehicle (EV) adoption in Kyrgyzstan. Interviews with 23 expert stakeholders and over 50,000 car sales are analysed. A total cost of ownership (TCO) model is presented for the Kyrgyz case. Policy recommendations are made on the basis of this study.

What is the car market like in Kyrgyz?

In comparison to the total number of newly registered vehicles (Table 2),according to the car dealerships interviewed the market for new vehicles is notably small: used vehicles dominate the market. As in many developing countries,the Kyrgyz car market mainly consists of second-hand cars imported from developed countries.

What data does Kyrgyzstan have?

In Kyrgyzstan, the National Statistics Committee publishes data on total imports of vehicles, fuel import and fuel consumption, total turnover from the sale of vehicles in the country, passengers carried by types of transport and the number of traffic accidents.

Does Kyrgyzstan have a potential for EV deployment?

Whilst a transition to electric vehicles (EVs) is a key part of Kyrgyzstan's Nationally Determined Contribution to the Paris Agreement,the potential for successful EV deployment in the region is under-researched. To fill this research gap,this paper presents an assessment of the potential for EV deployment in Kyrgyzstan.

Our team has the ability to search within reports to verify it suits your needs. We can also help maximize your budget by finding sections of reports you can purchase.

Historical Data and Forecast of Kyrgyzstan Energy Storage Unmanned Aerial Vehicles Market Revenues & Volume By Delivery and Logistics for the Period 2021 - 2029

This paper presents a comprehensive review of the most popular energy storage systems including electrical energy storage systems, electrochemical energy storage systems, ...

With growing demand for reliable electricity and a push toward renewable energy, energy storage systems (ESS) are becoming critical. But what drives the energy storage power price in Osh?

A cut in electric vehicle prices and their maintenance combined with the rise in fuel prices for conventional vehicles may contribute to the increase in electric vehicle demand.
