Where can I buy a capacitor?

At Farnell, we provide an extensive selection of capacitors that cater to both basic and complex electronic applications. AEC-Q200 Wide frequency band, high inductance, for power line. Buy Capacitors. Farnell's UK offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

What types of capacitors are available?

Our extensive selection includes electrolytic capacitors and standard capacitors in a range of materials, including ceramic, film, mica and tantalum. Also available are suppression, memory backup, variable and motor run capacitors for specialist applications.

What are the different types of ceramic capacitors?

We provide a comprehensive range of ceramic capacitors, encompassing several distinct types, including multilayer chip, disc, axial, plate, and high voltage variants. Leading brands available on the platform, ensuring quality and performance for diverse electronic circuits, include Suntan, Murata, Vishay, TruCap, and Kemet.

What is a capacitor used for?

A capacitor is a device used to store energy as an electric charge, similar to a battery but they are able to release the charge much faster. The amount it's able to store is known as capacitance, this is measured in Farads (F). They comprise 2 metal plates (conductors) separated by an electrical insulator (dielectric).

They come in a range of sizes and types, from small ceramic capacitors to large electrolytic capacitors. OnBuy's selection includes all the most popular types, so you're sure to find what ...

Mouser offers inventory, pricing, & datasheets for Capacitors.

Farnell's UK offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

With key components from Würth Elektronik and Suntan, Rapid's range of capacitors offers significant choice to the components buyer. Our ...

Electronic centre stock a range of capacitors. Electrolytic, tantalum, RFI, ceramic and motor run capacitors from leading brands such as JPR.
