What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Are solar roof tiles a good choice?

Glass solar tiles produce energy, while architectural-grade steel tiles add longevity and corrosion resistance to your roof. Both are durable, strong and engineered for all-weather protection. With a 25-year warranty, Solar Roof will continue to produce clean energy and protect your home for decades to come.

Do solar roof tiles have a warranty?

Glass and steel roofing tiles make up solar roof tiles. While the latter is flexible and can be installed on rooftops of any size or shape, the former is strong and offers exposure to the sun, which produces energy. In addition, while solar panels have a 20-year warranty, solar roof tiles have a 25-year warranty.

What is a combined solar roof tile and a battery solution?

The combined solar roof tiles and a battery solution offers an easy-to-use monitoring system so you can track your solar roof system's performance, monitor the amount of energy it stores and how much you're saving on your energy bill.
