What batteries do I need for my solar system?

We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

Which battery bank is best for a home solar panel system?

Home solar panel systems need a way to store all the energy they produce, which requires effective, efficient and powerful solar battery banks. BigBattery off-grid lithium battery banks are made from LiFePO4 cells, which are the best energy source because they store more energy than any other lithium or lead-acid battery.

Does bigbattery have a solar battery?

With built-in BMS and numerous safety features, you can rest easy and let our solar battery do the work for you. We have 24V and 48V lithium solar batteries to fit you with the right system for your solar application! BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application.

Which battery bank should I choose for the Instant off-grid containers?

Choose between a GEL Deep Cycle Sealed Lead Acid battery bank or a next-gen Lithium Iron bank. See below for more details and pictures. Pre-configured by RPS engineers. 370W solar panels power the Instant Off-Grid Containers. Each panel measures 69.1" x 40.9" x 1.4".

The energy storage system is essentially a straightforward plug-and-play system which consists of a lithium LiFePO4 battery pack, a lithium solar charge controller, and an inverter for the ...

BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

Our Solar Battery Container delivers eco-friendly, reliable energy for utility needs. Experience 24/7 power and reduced costs with innovative large scale solar battery storage systems.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.
