About this item ?MICRO SOLAR GRID TIE INVERTER? Micro solar grid-connected inverter is to convert the electricity of solar panel into usable electricity. Support 120/230V AC voltage ...

High Efficiency: The inverter has built-in high-precision maximum power point tracking, which can accurately capture and lock the maximum output power point, and greatly ...

With a maximum output of 1200W and an operating voltage range of DC18V-50V, supporting 2 groups of solar panel module access. Encased in a sturdy aluminum alloy with an IP67 ...

The solar cell micro inverter is equipped with high-speed digital processing chip, which makes the operation more stable. It enhances efficiency by optimizing power conversion processes, ...

Our inverter boasts a maximum output of 1200W and an operating voltage range of DC18V-50V, supporting 2 groups of solar panel module access. With our state-of-the-art MPPT technology, ...

The shell of the 1200W micro inverter is made of pure aluminum alloy with a low resistance copper core. It enhances safety by reducing the risk of electrical hazards, such as short ...
