Chinese multinational Envision Energy has unveiled the world's most energy dense, grid-scale battery energy storage system packed in a standard 20-foot container.

As we barrel toward 2025, North Asia's energy storage landscape is evolving faster than a viral TikTok dance. Whether it's China's 800kV ultra-high voltage storage ...

On October 17, 2024, the energy storage project by National Energy Group in Yongfu County, Guilin City, Guangxi Zhuang Autonomous Region, was officially launched.

It is the world's first energy storage system to reach a capacity of 20MWh per unit, and its design supports a lifespan of 25 ...

Containerized energy storage systems (CESS) have emerged as the Swiss Army knife solution, offering plug-and-play deployment from Mongolia's steppes to Japan's earthquake-prone coasts.

A key highlight of the event was a visit to a landmark 20 MWh project in Malko Tarnovo, powered by Sigenergy's modular C& I battery energy storage system (BESS).
