Kiritimati Island Energy Sector Programme Infratec has delivered European Development Fund contract to design, supply and install a HV network, two power stations and a 150kW solar PV ...

One of the largest costs associated with supplying water to Nuku"alofa is the cost of pumping water. The 503kWp Solar Farm and smoothing Battery Energy Storage System (303kWh ...

Our high-performance monocrystalline panels are ideal for integrated solar container deployments. With exceptional energy density and compact dimensions, they ...

Designed for integration into microgrid systems, these panels support both small and utility-scale energy projects, offering stable, long-term performance under diverse environmental conditions.

A BESS is a type of energy storage system that uses batteries to store and distribute energy in the form of electricity. These systems are commonly used in electricity grids and in other ...

Nuku"alofa"s energy transition hinges on smart outdoor BESS deployments that balance cost, reliability, and sustainability. As battery prices continue falling (\$97/kWh in 2023 vs. ...
