This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

We cater for custom build type units, as well as universal standard design. Mobile units are cost effective short and long term solutions to accommodation, ablution and office space required.

In a sparsely populated country like Namibia, decentralised energy solutions will be much faster and less expensive to deploy than the grid, allowing people living in hard-to-reach ...

Choose from our mobile units, customizable to your needs, or opt for our durable, prefabricated concrete-based buildings for larger spaces. Both options provide rapid deployment and ...

Solar solutions aren't just eco-friendly; they're becoming cost-competitive with traditional energy sources. Let's unpack the 2025 price landscape for residential, commercial, and industrial ...

The adoption of container-based off-grid solar storage systems faces significant cost and operational challenges. Initial capital expenditure remains a primary barrier, with ...
