What is the value of the global supercapacitors market in 2032?

The market is projected to record a valuation of USD 9.57 billion by 2032. What was the value of the global supercapacitors market in 2023? At what CAGR is the market projected to grow during the forecast period of 2024-2032? Which is the leading application segment in the market? Which is the key factor driving the market growth?

How big is the global supercapacitor market?

Source: Secondary Research, Interviews with Experts, Markets and Markets Analysis The global supercapacitor market is projected to grow from USD 1.35 billion in 2025 to USD 2.84 billion by 2030, at a CAGR of 16.1%. Growth is driven by adoption of automotive, consumer electronics, renewable energy, and industrial automation.

What are the different types of supercapacitor market?

The supercapacitor market is segmented into <100 F, 100-1,000 F, and >1,000 F categories. Supercapacitors below 100 F are widely used in devices needing rapid energy discharge with minimal maintenance.

How big is the supercapacitors market in 2025?

The market is projected to grow from USD 2.78 billion in 2025 to USD 9.57 billion by 2032, exhibiting a CAGR of 19.3% during the forecast period. Supercapacitors, also known as ultracapacitors or double-layer capacitors, are electronic devices that are used to store particularly large amounts of electrical charge.

Below is a detailed breakdown of the most common types of supercapacitors, their technical characteristics, and typical bulk pricing per farad--ideal for engineers, procurement ...

Supercapacitors below 100 F are widely used in devices needing rapid energy discharge with minimal maintenance. The 100-1,000 F range offers an optimal balance of energy density, ...

Supercapacitors (or ultracapacitors) utilize high surface area electrode materials and thin electrolytic dielectrics to achieve high capacitance values. They have more capacitance ...

Learn more about new Supercapacitors / Ultracapacitors at Mouser Electronics.

While prices have dropped 40% since 2018, a typical 3,000F supercapacitor module still costs \$150-\$300 -
