SolarSpace, a China-based PV cell and module manufacturer, announced the first phase of a 5GW high-efficiency solar cell plant in Laos, giving momentum to its overseas production ...

Enter Vientiane's groundbreaking solution - a 50MW solar farm paired with 10MWh battery storage that's sort of rewriting the rulebook for tropical energy systems.

Solar initiatives, especially smaller-scale installations, offer a less invasive alternative, enabling Laos to balance energy needs with environmental and social considerations.

Located in the northern provinces of Oudomxay, Luang Namtha, and Phongsaly, the project is designed to create a ...

It is the first large-scale solar project in Laos developed by a Chinese company. The initial phase of the project has a capacity of 50.1 MW, along with a 10 MWh energy storage ...

In response to increasing seismic activity in Laos, HiJuole has partnered with the Lao Earthquake Administration to develop an innovative Photovoltaic Energy Storage Station Solution.
