How much does solar energy cost in Brazil?

The average monthly electricity bill for a house in Brazil is R\$500, while the cost of installing solar energy on the roof is around R\$15,000, according to the price simulation table of the concessionaire Portal Solar. Due to the significant drop in module prices, the payback period for users has been significantly shortened.

Why are solar panels so expensive in Brazil?

Despite global overcapacity, several factors may contribute to a slight increase in solar panel prices in Brazil, with shipping costs and quotas for fiscal exemptions on imported PV modules playing a key role. From pv magazine Brazil Brazil imported around 10.1 GW of PV modules between January and May, according to PV InfoLink.

How much does PV cost in Brazil?

In Brazil's regulated electricity market, the price of PV has fallen from more than US\$100 per MWh in 2013 to US\$32 in 2022, and even just over US\$20 at its lowest point in 2019. Photovoltaic power and wind power are one of the lowest-cost power generation technologies available.

Are solar modules coming to Brazil?

However, some of these PV modules have not yet arrived in Brazil, which will be reflected in the import data for the first quarter of 2024. In 2023, the price of solar modules in Brazil fell by an average of 40%, mainly due to the expansion of the Brazilian solar industry.
