20 foot standard container delivery, easy to transport A complete solution, ...

The integrated containerized photovoltaic inverter station centralizes the key equipment required for grid-connected solar power systems -- including AC/DC distribution, inverters, monitoring, ...

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.

Solar micro inverter system with grid-connected units featuring high-performance MCU, MOSFETs, drivers.

BoxPower's flagship SolarContainer is a fully integrated microgrid-in-a-box that combines solar PV, battery storage, and intelligent inverters, with optional backup generation.

A MV-inverter station makes it all possible: Skid or container highlight of this chain is the MV-inverter station, which comprises the switchgear, transformer, and inverter.
