If, at any moment in time your power flow to the grid goes close to 3.5kW, the inverter's export limiter throttles the solar back, to ensure exports to the grid never go over 3.5kW. Remember ...

Export Control value can be set from 0W to more than the rated output power. When Export Control set to a value greater than inverter rated ...

If, at any moment in time your power flow to the grid goes close to 3.5kW, the inverter's export limiter throttles the solar back, to ensure exports to the ...

On the Devices tab of the System page, select the Solar Inverter and select Max Current Output. Select the desired Max Current Output. The ...

On the Devices tab of the System page, select the Solar Inverter and select Max Current Output. Select the desired Max Current Output. The maximum current output can only be configured ...

The solar panels receive sunlight and convert it to electricity, but the inverter controls the process so that only the required amount of electricity is produced. This means ...
