What is a sorotec inverter?

Let us support your journey toward a cleaner and smarter energy future. Sorotec inverters are designed specifically for residential, commercial and industrial applications.

Which solar panel has a microinverter?

The Q.Tron AC module is actually a solar panel with a built-in microinverter. And, since we named it "Rookie of the Year" in our best solar panels for 2025 ranking, it should come as no surprise that we think they're the best new inverter on the block too. Q Cells is a well-established solar panel manufacturer.

Which solar inverter is best?

CNET experts have compared the most popular solar inverters' specs, warranties, prices and more. The SolarEdge Home Wave Inverter is our top pick in 2025. It was the most efficient inverter we looked at, letting you use a larger percentage of the energy your solar panels generate. This translates to less and more power to use around the house.

Why are SolarEdge inverters so popular?

SolarEdge inverters have become increasingly popular in Australia, the USA and around the world over the last few years due to the unique design using DC optimisers that enable individual solar panel level power optimisation and control. See our detailed SolarEdge Review.
