The world's first vanadium-ion battery is set to finally take off in Korea, with no explosion involved, and it may forever change how ...

Invinity has delivered a 1.5 MWh VS3 vanadium flow battery (VFB) system to Korean Electric Power Company (KEPCO). Find out more in the case study below.

The system shows stable performance and very little capacity loss over the past 12 years, which proves the stability of the vanadium electrolyte and that the vanadium flow ...

On the afternoon of October 30th, the world's largest and most powerful all vanadium flow battery energy storage and peak shaving power station (100MW/400MWh) was connected to the grid ...

H2, Inc., a leading flow battery company in the world, has finally opened its new VRFB manufacturing facility in South Korea, named "K1 Plant". An US\$18 million Series B funding ...

South Korean vanadium flow battery (VFB) maker H2, Inc. has secured \$16 million of bridge funding towards the K2 manufacturing site which is intended to almost treble its ...
