What is Sungrow solar inverter?

Sungrow inverter is the only solar inverter brand in the world that has a substantial market share in over 60 countries. In India, Sungrow Power has installed over 4 GW of inverter capacity, making it one of the largest players in the market. The company aims to become No. 1 in India in 2020. Sungrow solar inverter distributor in India.

Why should you choose a Sungrow hybrid inverter?

These impressive power output and battery storage specifications from the Sungrow hybrid inverter range will allow for simple and powerful solutions for sites where it is impossible, impractical or expensive to have grid supply. For assistance in designing and supplying an off-grid Sungrow solution, feel free to contact our dedicated team.

Can Sungrow hybrid inverters be used off-grid?

Single Phase Sungrow Hybrid Inverters are now supported for use off-grid with generator backup. Sungrow has recently added a new feature for the Sungrow SHRS inverters to make them available to be used in an off-grid situation with a backup generator to charge batteries if there is not enough solar or a bit of backup is required.

Do I need a backup generator for Sungrow hybrid inverter?

Please observe all OH&S regulations when working on Sungrow equipment. The following guide is a condensed guide with all the extra information you will need to install and commission the Sungrow Hybrid inverter in Off-Grid mode, with a backup Generator. The Genset must be able to supply end user loads and charge battery at the same time.
