The Kingdom of Eswatini (formerly Swaziland), the smallest of three former British High Commission Territories in southern Africa, is an independent state located almost entirely ...

In a landmark decision, Swaziland has greenlit a major energy storage initiative aimed at addressing grid instability and accelerating renewable energy adoption.

Frazium Energy has signed a contract with the Eswatini government to develop a solar PV and storage project. The first phase is expected to consist of a 25-30MW solar PV component with ...

The Kingdom of Eswatini, formerly (and still commonly) known as Swaziland, is a landlocked country in Southern Africa and is informally known as "Africa in a nutshell".

The LFP battery uses a lithium-ion-derived chemistry and shares many advantages and disadvantages with other lithium-ion battery chemistries. However, there are significant ...

The demand for solar batteries is increasing as many solar users these days prefer to have their own energy storage system instead of depending on the local utility grid. It means you can ...
