What size folding glass wall units are available?

Solar Innovations ® offers a series of standard-sized Folding Glass wall units in both its G2 and G3 frame sizes. These units are designed to fit in multiple rough opening sizes and are available in two-through six-panel configurations. Customers can choose from six painted and two anodized finishes.

Who is G3 marine glazed folding glass wall systems?

G3 Marine Glazed Folding Glass Wall Systems Solar Innovations, Inc. was contacted for a unique project in Allentown, Pennsylvania. An 18th Century Pennsylvania Dutch Barn was being restored to house and display classic cars. The barn was originally constructed with stone walls and a beautiful wood roof supported by 8" x 12" beams.

Is the folding glass wall system better than a stacking door?

The folding glass wall system is perfect and far superior to our needs than the stacking door concept, which we thought was the only system available to us. I was speaking with Rachel this morning and I said how much I appreciate everyone at Solar and what a delight it is to work with you guys!

Can a patio roof be turned into a solar roof?

choose, combine it with vertical glass elements such as sliding doors, sliding and hinged systems or bi-folding doors. This turns your patio into an all-round protected feel-good area. The SDL Alerio system is available with PV modules that turn your patio roof into a solar roof and thus generate solar power.
