Why Ankara is Becoming a Hub for Battery Innovation When you think of energy storage battery materials, cities like Tokyo or Silicon Valley might come to mind. But guess ...

You know, Ankara's been quietly becoming a hub for energy storage battery imports - over 47% of Turkey's lithium-ion battery shipments entered through the capital in Q2 2024 alone. But why's ...

When China's lithium giant partnered with YIGIT AKU (Ankara's battery OG since 1976) to build 5GWh capacity, they didn't just bring capital - they brought a solid-state battery ...

Industry insiders whisper about graphene-enhanced lithium batteries hitting the market by 2026. As Ankara's Energy Minister recently stated, "We're not just storing energy - ...

While lithium-ion dominates Ankara's installed energy storage projects, innovators are testing wilder ideas. Take flow batteries using locally mined vanadium, or thermal storage ...

Well, that's where Ankara's independent energy storage projects come in. Unlike traditional battery setups tied to specific power plants, these standalone systems act like shock ...
