Will Tokyo mandate photovoltaic power generation for new buildings?

There has been a great response to the Tokyo Metropolitan Government's announcement in 2022 of " the mandatory installation of photovoltaic power generation for new buildings " and the term "the mandatory installation" seems to have made a particularly strong impression.

Where can I find information about solar power installation in Tokyo?

The Tokyo Metropolitan Government's Bureau of Environment's solar power portal site provides detailed explanations of not only the "subject of the mandatory installation," but also the implementation date of the program (April 2025),"benefits of installing PV system," "actual costs," and other details.

Will Tokyo have to install solar panels after April 2025?

Nearly all houses in Tokyo will have to install solar panels after April 2025. The regulation - passed by the Japanese capital's local assembly on Thursday - requires 50 major construction firms to equip homes of up to 2,000 square metres with renewable energy power sources.

Will Tokyo's new solar energy rule save residents money?

But Tokyo lags in its uptake of renewable energy. Just four per cent of buildings with the capacity for solar panels currently have them. The new rule will help change this. Overall, the measure will save residents money, the metropolitan government says.

This article covers considerations on Tokyo's new solar panel installation mandate, current energy generation challenges and examples ...

There has been a great response to the Tokyo Metropolitan Government's announcement in 2022 of " the mandatory installation of photovoltaic power generation for new buildings " and the ...

Each housing supplier will be required to comply with the "Renewable Energy Installation Standards" and install solar power generation on a percentage of their supplied ...

A new system requiring the installation of solar panels on newly built homes in Tokyo took effect on April 1, 2025. Tokyo has implemented an ordinance mandating the installation of solar ...

To increase the proportion of renewable energy generation, the Tokyo Metropolitan Government will set a precedent by requiring new detached homes to install rooftop solar panels.
