This marks the completion and operation of the largest grid-forming energy storage station in China. The photo shows the energy storage station supporting the Ningdong ...

Ultra High Voltage (UHV) technology, often dubbed the "highway of electricity", stands as one of gilded hallmarks of China's manufacturing.

Hitachi Energy offers a comprehensive range of high-voltage switchgear and breaker solutions up to 1200 kilovolts AC and 1100 kilovolts DC. IEDs, PIU/MU, RTUs, SCADA, DMS, cybersecurity ...

Hold onto your hard hats, folks-- ultra-high voltage energy storage isn't just another tech buzzword. It's the backbone of modern renewable energy systems, enabling grids to handle ...

Celebrated as one of China's "power highways," the 177,800 kV ultra-high-voltage direct current (UHVDC) transmission project from the upper reaches of the Jinsha River to ...

China recently announced the commencement of construction of a power transmission initiative connecting Hami in the Xinjiang Uygur autonomous region to Chongqing.
