The U.S. Department of Energy (DOE) has published (link is external) a Federal Register Final Rule (FR) amending its test procedure pertaining to Uninterruptible Power Supplies ("UPSs).

Describes federal agency acquisition guidance for energy-efficient uninterruptible power supplies.

ENERGY STAR Test Method for Uninterruptible Power Supplies Rev. Dec-2017; 10 CFR 430, Section 4, Subpart B, Appendix Y.

Comply with current ENERGY STAR Eligibility Criteria, which define performance requirements and test procedures for Uninterruptible Power Supplies (UPSs). A list of eligible products and ...

An uninterruptible power supply (UPS) or uninterruptible power source is an electrical apparatus that provides emergency power to a load when the input power source or mains power fails.

The proposed eligibility criteria document is contained on the following pages. Please follow this link to view the currently published eligibility criteria.
