---

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid ...

But here's the real magic trick - Vanuatu's factory isn't just assembling batteries. They're pioneering saltwater lithium-ion hybrids that withstand corrosive sea air better than ...

Housed in secure, purpose-built battery cabinets, the solution maximizes both safety and storage performance. ? Even during grid instability and peak demand, the system provides seamless

In cooperation with the start-up Africa GreenTec, TESVOLT is supplying lithium storage systems for 50 solar containers with a total capacity of 3 megawatt hours (MWh), enabling a reliable ...

Next-generation battery management systems maintain optimal operating conditions with 45% less energy consumption, extending battery lifespan to 20+ years. Standardized plug-and-play ...

We've installed systems across Vanuatu--from single homes to multi-building complexes. We partner with leading solar and battery manufacturers and remain vendor-neutral to always ...
